

# ONLINE TRAINING PROGRAM FOR POWER DISCOMS

Leveraging its position of being recognised across the world as a leading example of a highly successful turnaround story of Power Distribution Sector reforms TATA POWER Delhi Distribution Limited (TATA POWER-DDL) has been assisting Distribution Utilities both within India and across the world with its expertise and domain knowledge by providing **Consultancy Services as well as High-End Trainings Programs** on a number critical topics like **Loss Reduction, System Improvement, Business Process Reengineering, IT & OT Services** (Information Technology & Operation Technology Services), **Demand Side Management, Renewable Energy Adoption, Competency Development** etc.

COVID-19 has transformed our personal and professional lives, including learning and development in ways we would never have imagined. **However organisations across the world have realised that we need to get going with our organisational requirements and objectives.** Conducting business-as-usual also means continuing to focus on employee development and not letting learning and development fall by the wayside. You would agree that Learning and Development is a key strategy to unlock employees' growth potential.

TATA POWER Delhi Distribution Limited is offering each of the Training Programs listed below as **3-Day ONLINE TRAINING MODULES** to address the Learning and Development needs of Power Distribution Utilities for dealing with the challenges of the present and future.

Sl. No.	TRAINING THEMES	DATES	SESSION TIME
