

Chapter 2: Let's Spread the Goodness - Share Your Best Practices

In continuation to our pilot launch of “Spread The Goodness - Share Your Best / Unique practice”, nominations were sought from Food Industries in Q2 (FY 2021-22). The participant customers – Commercial & Industrial, from Food Industries were to share their best practices to promote Energy Conservation, Digitalisation, Safety and Quality. The key intent behind launching the initiative is to reward the best entries and share the best practices with all so that the same may get replicated. The response we received was extremely overwhelming. All the entries were screened by our panel of judges on various parameters including scope and impact and we have eventually come up with 3 winners.

The Winners are:

- **Hotel Oberoi Maidens**

Details of the best practice implemented:

- a) Organic Waste Compost Machine installed at the premise to generate fertilizers
- b) Plastic Garbage is sold only to the Government Authorized vendors for proper recycling to keep the environment safe
- c) E-Waste disposal is done only through Government Authorized vendors to keep the environment safe
- d) Food Menu @ Hotel is replaced with digital menu scannable through bar code to reduce carbon footprint & wastage of paper and to promote digitization campaign
- e) Tree Plantation is done at regular intervals to keep the environment clean and promote nature

TATA POWER-DDL

- **Haldiram's**
