

**TATA POWER-DDL**

## Let's Spread the Goodness - Share your Best Practices

In order to promote the culture of Energy Conservation, Safety, Digitalisation and Quality across, a unique initiative “**Let's Spread the Goodness - Share Your Best / Unique practice**” has been launched by team Tata Power-DDL for their Industrial and Commercial customers. Under the initiative, all Schools/ Colleges/ Institutions in Tata Power-DDL's area of operations were selected and nominations were sought from them to share their best practices on underlined aspects. Key intent behind launching the initiative is to reward the best entries and share the best practices across so that they may get replicated at a larger level.

All the entries were screened by our Panel of judges on various parameters including scope and impact and 2 out of them were declared winners.

1. **Prabhu Dayal Public School** (Best Practices) : a) Tie up with IIT Mumbai to assemble Solar Lamps by students b) Solar Panel c) Compost pits d) Rain Water harvesting
2. **Vikas Bharati Public School:** (Best Practices): a) Compost pits in school compound where biodegradable waste is turned to compost; used as a manure for the plants in the school campus. b) In House Paper recycling unit c) Electronic waste collection from students; sent for recycling.

A felicitation ceremony was organised for the winners on 22<sup>nd</sup> June 21 at Tata Power-DDL's Cencare office where the Principal/Headmistress representing the schools were rewarded for their best efforts. The school representatives appreciated this unique launch by Tata Power-DDL quoting this as a move to spread the good vibes around and encouraging others to replicate the best practices.
