PUBLIC NOTICE

Clearance of buildings, structures, balconies, verandas, roofs, chajjas, temporary structures etc. from electricity mains or electric installations of the Distribution Licensee.

We hereby draw the attention of the owners/ occupiers and the members of the general public, who have raised or extended their buildings, civil works, structures, projections, balconies, chajjas or boundary walls temporary structure etc. during or after the erection of authorised Electrical Mains or associated electrical installations in violation of the provisions of Regulations 60 and 61 of the Central Electricity Authority (Measure relating to Safety and Electric Supply) Regulations, 2010 (as amended from time to time), and related provisions of the Electricity Act, 2003 (Section 53 and 68(5) read with Section 161).

Regulations 60 and 61 of the Central Electricity Authority (Measure relating to Safety and Electric Supply) Regulations, 2010 (as amended from time to time) stipulate the following minimum vertical and horizontal clearances essentially required to be maintained from the electricity mains and electrical installations of the Distribution Licensee to avoid any mishap or fatal accident.

S. No	Lines / Installations	Minimum vertical clearance where line is passing above a building / structured balcony etc.	Minimum horizontal clearance where line is passing adjacent to a building / structured balcony etc.
1.	Lines of voltage upto 650 Volts.	2.5 metres from the highest point.	1.2 metres from the nearest point.
2.	High Voltage line exceeding 650 Volts up to and including 11000 volts.	3.7 metres from the highest point	1.2 metres from the nearest point.
3.	High Voltage line exceeding 11000 Volts and up to and including 33000 Volts.	3.7 metres from the highest point	2 metres from the nearest point.
4.	Extra High Voltage line exceeding 33 KV.	3.7 metres (Plus 0.30 metres. For every additional 33000 Volts or parts thereof)	2 metres (Plus 0.30 metres. for every additional 33 KV or part thereof)

By this Public Notice, owners/ occupiers and members of the general public are advised to remove unauthorised structures, civil works, buildings, projections, balconies boundary walls, temporary structure etc. immediately, which are in violation of the minimum clearances required from the electricity mains/ installations (as stipulated and mentioned above), failing which action may be initiated for removal of such illegal structures through municipal authorities, local bodies etc. read with the provisions of the Electricity Act, 2003 and rules and regulations made thereunder.

It may further be noted that such violators will be held personally responsible and liable for any loss of life and/ or property and shall be prosecuted as per applicable laws.

FOR YOUR SAFETY:

- Stay away from all electrical installations like electricity poles, sub-stations, transformers, streetlights etc., especially if they are water-logged
- Don't park your vehicles or keep flammable materials near electricity meter
- Install an Earth Leakage Circuit Breaker (ELCB) to help avoid shocks and mishaps
- Don't fly kites near electrical installations as it can be fatal
